

SENVORO

The Chemistry of Progress

About Us

At Senvoro, chemicals are more than a business they are our passion and expertise. We specialize in sourcing, testing, and delivering industrial and agricultural chemicals that meet the highest international standards. Every delivery comes with the assurance of quality, compliance, and on-time performance.

“The Chemistry of Progress” is more than a tagline, it’s our promise. We enable growth and innovation through dependable supply, sustainable practices, and a customer-first mindset.”

Vision

To become a globally recognized leader in chemical distribution, offering a diverse portfolio that drives progress across multiple industries.

Mission

To empower industries, communities, and economies by supplying chemical products with unwavering excellence, safety, and sustainability.

Core Values

Integrity: Honesty and transparency in every interaction.

Reliability: Consistent delivery and dependable service.

Responsibility: Commitment to environmental and safety best practices.

Innovation: Embracing technology to enhance services.

Collaboration: Building long-term partnerships across sectors.

Our Products

Senvoro offers a wide range of high-quality industrial, agricultural, and marine chemicals designed to meet global standards. Our products are trusted for efficiency, safety, and consistent performance across multiple industries.

UREA

Technical Grade Urea (TGU)

High-purity urea is used in industrial applications such as resins, adhesives, and chemical manufacturing.

Applications: Resins, adhesives, industrial chemicals.

Supply: 50 kg bags, jumbo bags, bulk shipments – available for domestic & international markets.

Aqueous Urea Solution

Liquid form of urea is used in SCR (Selective Catalytic Reduction) systems for reducing NOx emissions in diesel engines.

Applications: Automotive DEF, industrial emissions control.

Supply: Available in IBC tanks.

Agricultural Grade Urea

Agricultural Grade Urea is a high-efficiency nitrogen fertilizer that accelerates crop growth and boosts yields in wheat, rice, corn, and other high-demand crops. Applications: Primarily used in agricultural settings to enhance soil nitrogen levels and support healthy crop development.

Supply: Available in 50 kg bags, jumbo bags, and bulk shipments for both domestic and international markets.

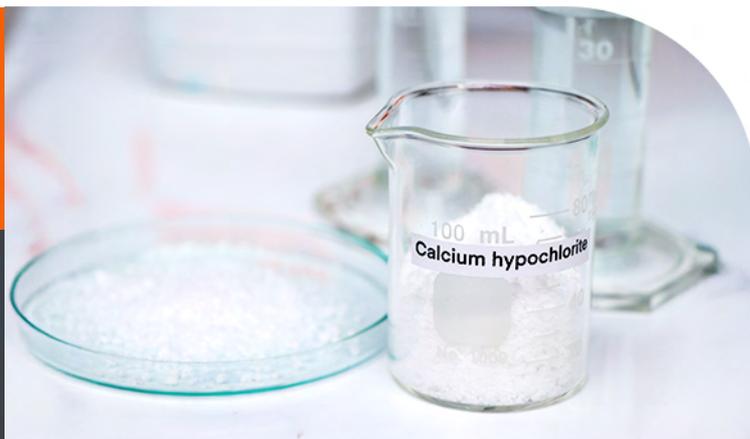

Calcium Hypochlorite

A reliable, fast-acting chlorine compound for water disinfection, ensuring safe and clear water in pools, industrial systems, and municipal plants. Known for its purity and long shelf life.

Applications: Water treatment, pools & spas, industrial cleaning.

Supply: 25 kg, 45 kg, 50 kg packs, or customized as per client requirements.

Caustic Soda

A cornerstone chemical for manufacturing and treatment processes. Its strong alkalinity delivers efficiency in petroleum refining, detergents, textiles, and water treatment.

Applications: Detergents, petroleum refining, paper, water treatment.

Supply: Flakes, pearls, or liquid. 25 kg & 50 kg bags, or as per client requirements.

Sulphur

Vital for agriculture and industries, Sulphur boosts fertilizer efficiency and supports the production of rubber, plastics, and chemicals.

Applications: Fertilizers, rubber, plastics, industrial chemicals.

Supply: Granular, powder, or prilled. 50 kg bags, jumbo bags, bulk shipments, or as per client requirements.

Soda Ash (Sodium Carbonate)

A versatile industrial chemical used for stabilizing pH and powering the glass, detergent, and ceramics industries.

Applications: Glass manufacturing, detergents, ceramics, water treatment.

Supply: Light & dense grades in 25 kg, 50 kg, jumbo bags, or as per client requirements.

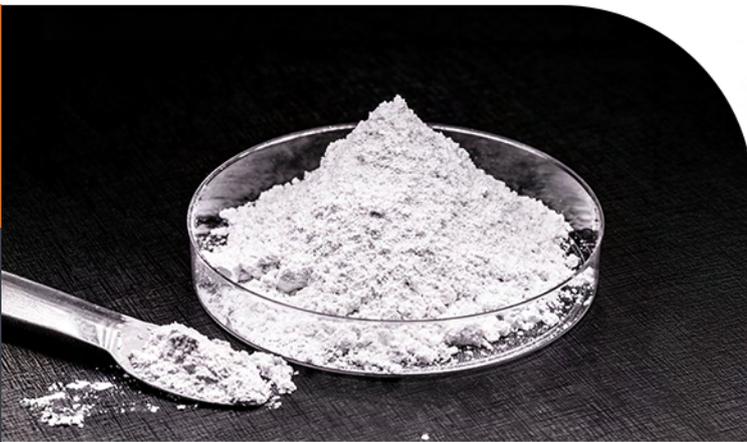

Sodium Bisulfate (Pool Acid)

A safe, efficient acid for water treatment systems. Prevents scale, corrosion, and imbalance in boilers, pools, and cooling towers.

Applications: Water treatment, cooling systems, pools.

Supply: 25 kg & 50 kg bags, bulk packaging.

Sodium Chloride (Industrial Salt)

Industrial-grade salt serving food processing, chemical industries, water softening, and de-icing needs worldwide.

Applications: Food processing, water softening, chemical industries.

Supply: Granular, refined, or industrial grades in 50 kg bags, jumbo bags, bulk, or as per client requirements.

Degreaser

A high-performance degreaser formulated to remove oil, grease, and carbon deposits from machinery, engines, and industrial equipment. Its strong cleaning action ensures improved efficiency, safety, and reduced downtime.

Applications: Engines, machinery, workshops, marine & industrial equipment.

Supply: 25 L, 200 L drums, and IBC tanks, or as per client requirements.

Marine & Industrial Tank Cleaner

A high-performance cleaner designed for the effective removal of oil residues, hydrocarbons, and chemical deposits from ships and industrial tanks. The marine-grade cleaner is IMO-approved, ensuring compliance with international maritime standards, making it a trusted choice for global shipping operations.

Applications: Ship tank cleaning, cargo holds, offshore platforms, industrial tanks.

Supply: 25 L, 200 L drums, and IBC tanks, or as per client requirements.

Rust Remover

A powerful formula to dissolve rust and corrosion from metal surfaces, restoring equipment and extending service life. Leaves surface ready for repainting or protective coatings.

Applications: Marine vessels, pipelines, industrial machinery, metal surfaces.

Supply: 25 L, 200 L drums, and IBC tanks, or as per client requirements.

Barite (Barium Sulphate)

A high-density mineral essential in oil & gas drilling, paints, and coatings. Ensures consistent performance with high purity and density.

Applications: Oil & gas drilling, paints, coatings, automotive.

Supply: Powder & lumps in jumbo bags, bulk, or as per client requirements.

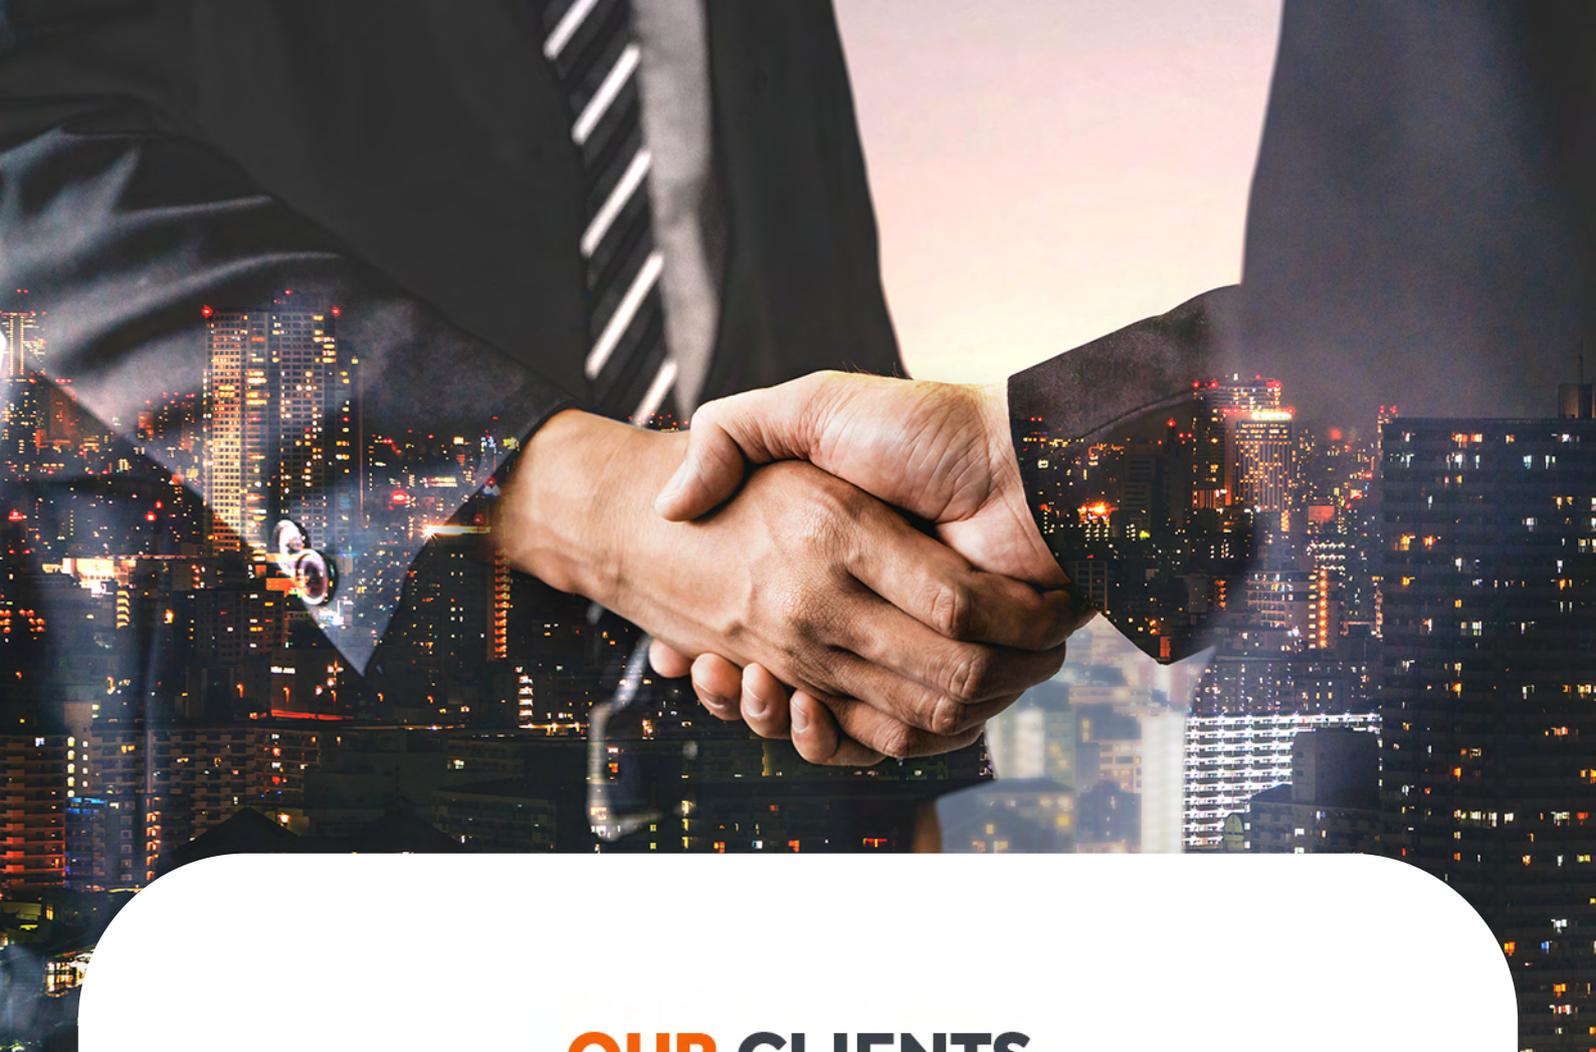

Sustainability

At Senvoro, our global vision is matched by local care. With strategically located offices and a strong logistics network, we respond swiftly to changing market conditions, regulatory requirements, and customer needs worldwide.

We are committed to sustainable growth by integrating environmentally responsible practices across all operations. Innovation drives our solutions, helping us enhance efficiency, minimize environmental impact, and deliver reliable chemical products that empower industries and communities.

Through this global yet locally attentive approach, Senvoro continues to expand our product range, enter new markets, and build long-term partnerships, delivering the Chemistry of Progress with excellence and responsibility.
